

# **Huron-Kinloss Nuclear Waste Community Advisory Committee**

## **PUBLIC MEETING**

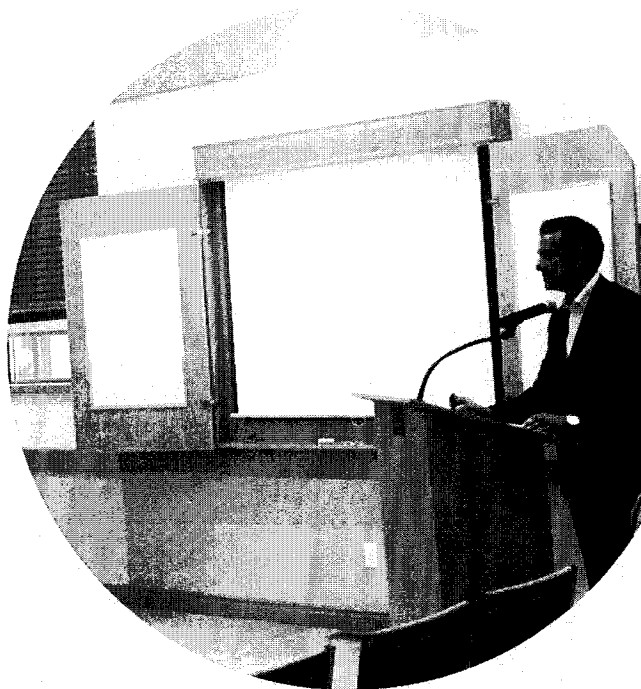

**Everyone Welcome**

**Tuesday, June 4, 2019**

**7p.m.**

**Township of Huron-Kinloss  
Council Chambers**

**21 Queen St., Ripley**

### **- NWMO Update -**

The Nuclear Waste Management Organization (NWMO) will provide an update on the Roadmap to Partnership - Project Visioning. Join us as we hear this update from Christina Vechsler, NWMO Strategic Advisor and Senior Counsel.

Allan Webster, NWMO Director of Regulatory Affairs and Environmental Assessment, will provide an overview of the recently announced Land Access Program and details on the opportunity to advance field studies in the area.

# Facility Tours

The Nuclear Waste Management Organization coordinates tours of both the NWMO Oakville Demonstration Facility and the Ontario Power Generation (OPG) Western Waste Management Facility at Bruce Power to provide Huron-Kinloss residents a better understanding of Canada's plan to store the high-level nuclear waste.

## NWMO Oakville Demonstration Facility Tour

Monday, June 10, 2019  
Tuesday, October 22, 2019

Residents will learn first hand about the extensive design, optimization and proof-testing program that is underway to support the safe, long-term management of Canada's used nuclear fuel. This tour will provide the opportunity to see the facility where the NWMO conducts test on a number of aspects related to the Deep Geological Repository (DGR) and related multi-barrier system for the long-term containment and isolation of used nuclear fuel. Current work is focused on the engineered barriers and placement technologies, a safe and secure transportation system, and above and below ground design concepts.

Transportation will be provided. Pre-registration is required as space is limited.

## OPG Western Waste Management Facility Tour

Wednesday, July 17, 2019  
Thursday, November 14, 2019

This tour provides an opportunity to see how used nuclear fuel is currently managed on an interim basis at the Ontario Power Generation (OPG) Western Waste Management Facility at the Bruce Power Site. Participants will have the opportunity to learn more about Canada's plan for the long-term management of used nuclear fuel.

Transportation will be provided. Pre-registration is required as space is limited.

To register for either of these tours, please contact  
Elyse Dewar, Project Coordinator at 519-395-3735 or
