American Chestnut Trees only found in Southwestern Ont is on the Endangered Tree List. The town plans to remove one of these trees that is over 40 years old for the sake of 2 parking spaces! This must be stopped. We have already removed every tree from across

the street at the bathhouse! Please confirm to me that the people responsible for this tree removal will be stopped.

There has been enough trees come down in the municipality recently. I understand we are a tourist community but please give the tree huggers this one win... leave the chestnut tree if you care at ALL about year-round residents. Better yet, less parking at

tiny tot means they might park downtown and spend some money up there before they head to the lake.

It's concerning that the municipality is seeking to cut down a tree for a meagre 2 parking spots.

The monstrosity of a parking lot at tiny tots won't be improved with 2 parking spots.

Do better.

- **The name of the operation, facility or service about which the complaint is being made**
MUNICIPAL DEVELOPMENT, MACPHERSON PARK
- **Details of complaint**
It has come to my attention that the tree destined for removal for additional parking spaces for the parking lot by MacPherson Park is an American Chestnut, and as such, is on the endangered species list. In addition to it being a source of shade and visual appeal, by the asphalt jungle, it is protected and must not be touched. Not cut. Not touched.

Trees take hundreds of years to grow and provide shade, homes for little animals, fruit and also clean our air and gives oxygen... why do we need 2 more parking spots? UGH Disgusted by the awful choices made.

maybe instead of cutting down something that takes hundreds of years to grow, someone could walk to another spot.

My family does not think it's right to cut down this tree for parking spaces that won't be used most of the year. It's healthy and strong , provides shade and chestnuts for the wildlife around it. We've gotten along just fine without two more parking spots for decades, we can continue. If you cut it down, there better be two trees of at least half the trunk diameter plated in the park in its place. Not saplings. Why do our tourists get more consideration than the residents?

I understand that a large HEALTHY Chestnut tree is going to be destroyed simply to accommodate a couple of parking spaces. This tree is only found in southwestern Ontario and is on the endangered list and as such it cannot be destroyed! A number of people

have contacted Adam Weisher and others and been ignored. Why is the town so set on destroying perfectly healthy trees .

There is an endangered American Chesnut Tree that is scheduled to be cut down to make room for 2 parking spaces. This is not only unnecessary, but also illegal, as this tree is on the endangered species list. and only found in southwestern Ontario. The Municipal

Supervisor, Adam Weiser, appears to be in charge of this and is ignoring complaints from concerned citizens.

I understand the municipality plans to take down a mature chestnut tree in order to add 2 additional parking spots at McPherson park. I'm not aware of the entire rationale, but if it is only to add 2 parking spots, the value of the tree is much, much greater than that. Please reconsider taking this tree down.

Thanks

- **Please provide the location of the issue.**
MacPherson Park boulevard Lambton St
- **Would you like to be updated regarding the issue?**
Yes
- **How would you like to be contacted?**
Email

- **If you have additional information please provide it below.**

Adam Weiser has advised my neighbour and me that this mature chestnut tree will be removed to accommodate 2 parking spots. This is outrageous. These 2 proposed spots will only be required if all other spots are filled on probably only 6 weekends of the summer. 12 days of the year at the cost of shade, beauty, animal habitat, environment. Please reconsider the destruction of this tree. Please keep me updated on discussions and decisions. Thanks

Yes
- **How would you like to be contacted?**
Email
- **If you have additional information please provide it below.**
Concerned regarding the upcoming removal of a mature chestnut tree at the north end of the park near the playground - apparently to provide an additional two parking spots. This mature tree should be preserved for shade, animal habitat and visual appeal to name

just a few reasons. Removing a mature tree for so little gain is shameful, especially in a park setting.

It has come to my attention that there are plans to cut down a healthy, mature chestnut tree on the edge of Tiny Tot Park in order to make space for two more parking spots. My concern is that destruction of a perfectly healthy, mature tree is not warranted for the

purpose of creating two parking spots in an already sustancial parking lot. These parking spots are benefit us only seasonally. This tree is benefits us always.

Hello,

Please note the following response to Citizen Complaint Form has been submitted at Wednesday June 1st 2022 10:18 PM with reference number 2022-06-01-040.

- **Name**
Tracey Hinchberger

- **Email**
[REDACTED]
- **Phone**
[REDACTED]
- **Date**
1/6/2022
- **The name of the operation, facility or service about which the complaint is being made**
public works
- **Details of complaint**
The impending removal of the chestnut tree at MacPherson park to accommodate 2 parking spots. This town has lost enough trees. There is no reason this tree can't be "worked around." I doubt the expertise of the workers who have apparently suggested possibly moving it. The town does not employ an arborist, and special expertise and equipment would be required to properly move the tree to ensure its survival.
- **Actions complainant wishes to see take place**
A reworking of the parking spots in question to allow for the tree to remain untouched. It is a mature tree that would actually be an asset to the parking area by providing much needed shade.

Why would the particular tree in question be removed for 2 parking spots? Leave it alone for shade to park under, bowlers have ample parking space!
More than enough trees have been lost in the area of Dunsmoor Park!
Plus all the seating that used to be there is gone!
No room anymore!
Ridiculous!

I left a phone message yesterday. No call back. Two questions:

1. What is the process used to decide to remove 1 or more trees, and
2. What is the rationale for removing this tree?

- **Date**
2/6/2022
- **The name of the operation, facility or service about which the complaint is being made**
public works
- **Details of complaint**
This complaint is wrt the proposed removal of a chestnut tree adjacent to the lawn bowling facility at MacPherson park to facilitate parking. It's my understanding that this tree is to be removed to make way for 2 parking spaces. While in general I am in favour of the work that's been done on Saugeen St., I feel that there are ways to work around the parking without having to impact this tree.
- **Actions complainant wishes to see take place**
A reworking of the paving around the tree as the workers present have allegedly suggested

[REDACTED]
- **Date**
2/6/2022
- **The name of the operation, facility or service about which the complaint is being made**
Town of Kincardine , Parks & Recreation
- **Details of complaint**
It has come to my attention that there will be a large tree removed from MacPherson Park to make room for more parking or whatever is happening over in that park. There have been far too many trees removed in this town without anyone being able to do anything about it.
This is our town & we need to be more open about what is happening, especially to the trees
- **Actions complainant wishes to see take place**
Do not destroy the tree. Even working closely around it could hurt the roots

Hello.
To whom it may concern.
Please explain why that tree is being cut down?

It will be wonderful shade and our environment is a bigger concern than parking.

Thank you.
Shelley

Removal of this tree is very concerning - it is still alive and beautiful, and provides much needed shade for the playground, and for cars parked close by. If it is true that it is being removed for a few more parking spaces that is short-sighted and a supremely poor

decision. The parking opportunities have been expanded in the area and there is also plenty of street parking around that area. PLEASE RECONSIDER this decision. It is not necessary and a new planting will take years to mature.
