The CNSC has issued an administrative monetary penalty (AMP) of \$24,760 to Bruce Power Inc.

Following a failure to properly quarantine suspect end fittings, which led to their inadvertent installation in Unit 6 during the Major Component Replacement project, Bruce Power elected not to segregate the suspect items as required. No actions were taken to correct this non-compliance after CNSC staff brought the matter to the attention of Bruce Power.

This AMP is being issued to Bruce Power to promote compliance with the conditions of its licence and to deter reoccurrence.
