Council shall, annually, determine the amount of funds to be allocated to the Community Investment Grant Program through the budget process.

The annual budget process timelines vary and applicants need to take into account that approvals may not be granted in the time that suits their events or particular needs.

The program shall provide a modest level of assistance to non-profit organizations in a fair and equitable manner. It is not the intent of this program to provide sustainable funding or to create long-term financial dependency. Applicants are eligible to apply for up to \$5,000.

Grants are intended to be supplementary to main sources of funding for organizations. The organization must show exploration of other financial support and options (i.e. fundraising and volunteer support).

The granting of financial assistance in any year is not to be regarded as a commitment by the Municipality to continue to provide such assistance in future years. In addition, the Municipality will not provide guaranteed funding beyond the current fiscal year.

Only one application per year will be permitted per organization. The funding amount requested per group and the maximum amount granted must not exceed \$5,000. Incomplete applicants will not be accepted. The incomplete application will be returned to the applicant, with an explanation of the deficiencies, who may re-submit.
