

Scott McPherson Delegation

Subject: Prices for accessible washrooms

These prices are to buy one at a time and could be ordered and installed by staff

- toilet assembly with automatic, flush, and toilet seat included \$1200
 - ergonomic toilet paper dispenser \$160
 - two 24" garb bar is required for urinal for \$300
 - Audible visual emergency notification system
 - signage and Wayfinding Two display boards, possibly electronic: main entrance
- : senior centre estimate \$ 20,000

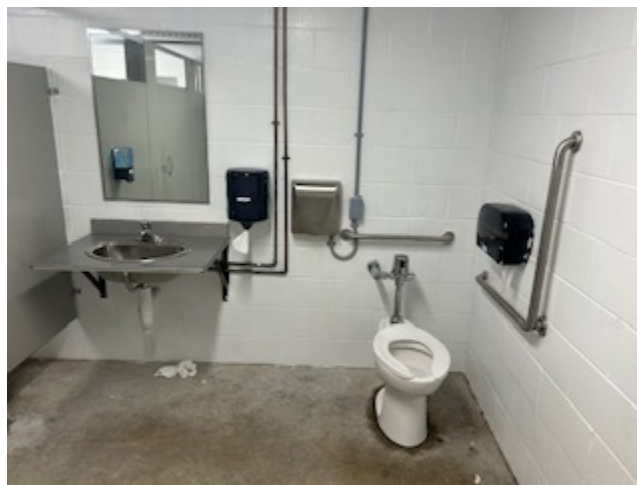

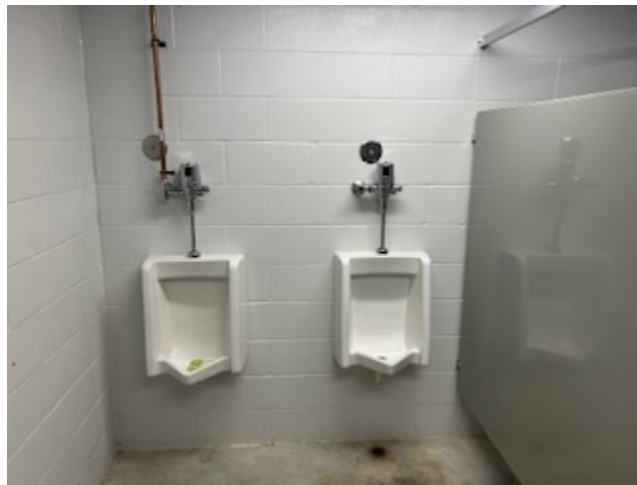

There are approximately 12 toilets at the Davison Centre to replace which is estimated at \$15,000. This is if the toilets are purchased one at a time. As of yet, I have no information on the emergency systems and it would require the purchasing and hiring installation by a master electrician so for now this is an unknown.

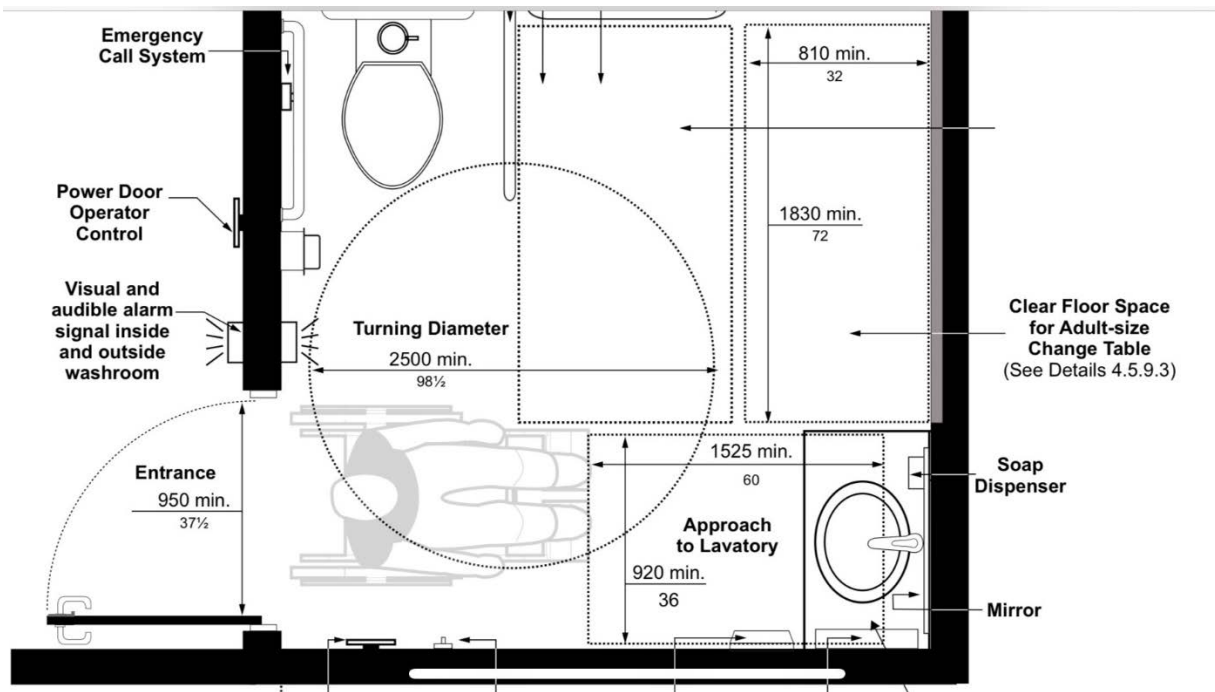

It's very important to know that three other washroom facilities in the town require upgrades to meet the standards. To keep up to date and not fall behind I would suggest that they could be done with these funds.

Legion Park washrooms

Men's washroom

- replace toilet \$1200
- mirror \$600
- Urinal grab bars \$300
- toilet paper dispenser \$160
- signage \$300
