Bruce C Nuclear Project

Notice of Referral to Review Panel

Ottawa — December 20, 2024 — The Impact Assessment Agency of Canada (IAAC), on behalf of the Honourable Steven Guilbeault, Minister of Environment and Climate Change (the Minister), has referred the impact assessment of the [Bruce C Nuclear Project](#) (the project) to an independent review panel.

As per section 43 of the *Impact Assessment Act*, the Minister must refer the integrated assessment of a project to a review panel if the project includes physical activities that are regulated under the *Nuclear Safety and Control Act*.

IAAC has chosen to issue the Notice of Referral to a Review Panel prior to the Notice of Commencement to provide greater certainty to participants and the proponent regarding next steps in the impact assessment and to

facilitate collaboration with the Canadian Nuclear Safety Commission.

For further information on this impact assessment, please contact:
