**Subject:** Public hearing on CNL's licence amendment application for Douglas Point rescheduled to August 2020

UNRESTRICTED / ILLIMITÉE

Good afternoon,

Thank you for your interest in Canadian Nuclear Laboratories' (CNL) [Douglas Point Decommissioning Project](#). I would like to share a brief update on some recent changes related to this project.

Due to the current public health situation with COVID-19, we have postponed all of our planned in-person meetings and events with stakeholders. We will begin to reschedule these activities, as soon as it is appropriate and safe to do so. In the meantime, we are looking at other ways to continue our conversation with the public and we will reach out on this again in the coming weeks.

As well, the federal nuclear regulator, the Canadian Nuclear Safety Commission (CNSC) has [rescheduled the public hearing](#) on our application to amend the licence of the Douglas Point facility from June 17<sup>th</sup> and 18<sup>th</sup>, 2020, to August 19<sup>th</sup> and 20<sup>th</sup>, 2020. We will share more details on this hearing as they become available.

Please do not hesitate to reach out for more information or if you have any comments, questions or suggestions.

For more information on the project, you can visit our web page at [www.cnl.ca/dp](http://www.cnl.ca/dp).

Take care,

Margot
