Re: Proposed Huronville S Pump House Generator

Dear Adam:

Further to our letter dated July 6, 2018, a recommendation regarding the potential installation of a permanent on-site generator was brought forth to Council at the April 1st Committee of the Whole meeting. Council approved the proposal of a cost sharing arrangement between the Township of Huron-Kinloss and the Municipality of Kincardine whereby both parties would contribute equally to the cost of a propane generator with the intent of converting to natural gas when this fuel source becomes available.

The 2019 budget approved by Council includes \$180,510.00 for the installation of a generator contingent on a contribution of \$90,255.00 from the Municipality of Kincardine. The actual contribution costs will be determined once this project is complete.

If you have any further questions please do not hesitate to contact my office.

Yours truly,

John Yungblut, C.E.T.
